FIFTEENTH ANNUAL MEETING OF CONTRIBUTORS.

Tuesday, January 2, 1866.

At a meeting of the contributors to the Hospital of the Protestant Episcopal Church in Philadelphia, held this day, pursuant to the charter, at the office, 708 Walnut Street, the Rt. REV. WM. BACON STEVENS, D.D., was called to the Chair, and REV. JOHN A. CHILDS was appointed Secretary.

The Report of the Board of Managers, together with the annual statements and accounts, were then presented; when,

On motion, it was

Resolved, That the Report and accompanying documents be referred to the Board of Managers to be published, or so much of them as may be considered desirable.

On motion, it was

Resolved, That the contributors do now proceed to elect eight Managers, in the place of those whose terms expire this day, and one for the unexpired term of Rev. H. W. Ducachet, D.D., deceased.

The following gentlemen, having been nominated, were duly elected members of the Board, to serve for the ensuing three years:

REV. M. A. DE WOLFE HOWE, D.D.
RICHARD NEWTON, D.D.
REV. WM. RUDDER, D.D.
JOHN BOHLEN, ESQ.
WILSON B. SWANN, M.D.
EDWARD HARTSHORNE, M.D.
JOHN WELSH, ESQ.
W. G. THOMAS, ESQ.

—and the REV. DANIEL S. MILLER in the place of the REV. H. W. DUCACHET, D.D.

On motion, adjourned.

WM. BACON STEVENS, *Chairman*.

JOHN A. CHILDS, *Secretary*.

THE FOURTEENTH ANNUAL REPORT

OF THE

BOARD OF MANAGERS.

THE reports of the Board of Managers for the last two years began with recording, with thankfulness to God, that no member of this body had been removed by death. We cannot do so on this occasion.

It has pleased Almighty God to remove from earth our venerated and beloved Bishop. In recording their sense of such a heavy and irreparable bereavement, the Managers feel that words are inadequate to a proper expression of it. While this Diocese, the general council of our Church and the various great designs for men's souls and bodies which he labored to advance, as well as the whole American nation, have great cause also to mourn, it is for us especially, in addition, to remember the agency he had in organizing and conducting this Hospital and his constant and unselfish devotion to its interests. Wherever he was occupied for the glory of God or the good of man, his ripe Christian character, earnest devotion, powerful mind, rich culture and practical wisdom and judgment were in their full use; but we who know how here, in our work, his sympathy for those to whom we minister was guided by his eminent administrative abilities to noble ends can best lament his loss. It must not be forgotten that it was Bishop Potter who shaped into action the plan of this Hospital, which had before been a thing desired, and whose details had been

planned by Christian charity and thought, but never accomplished, that it was *his* assurance of support and *his* warm and wise co-operation that led to its foundation ; and that from that time to this, in its organization, in its first days of feebleness, through all its history to the present day and its present state of strength, it was Alonzo Potter, ever unwavering in his care for its interests, who was not nominally only, but really its head.

Actuated by the love of children and the regard and veneration of friends to this noble and truly excellent Bishop and man, the Board of Managers have ordered the erection in the hall, of a tablet to record his worth, in the following words :

"IN MEMORY
 OF THE
 R T. REV. ALONZO POTTER,
 D.D., LL.D.,
 WHOSE FOSTERING CARE,
 WISE COUNSEL,
 AND UNFALTERING SUPPORT,
 SECURED THE ESTABLISHMENT
 OF THIS
 HOSPITAL,
 FOUNDED ON THE CHRISTIAN IDEA
 WHICH COMBINES
 THE RELIEF
 OF BODILY SUFFERING
 AND
 THE CURE OF BODILY DISEASE
 WITH
 THE HOLIER MINISTRATION
 TO THE UNDYING SOUL
 OF THE
 BLESSINGS OF THE GOSPEL
 OF OUR LORD JESUS CHRIST."

Within the month past, death has suddenly taken another of our Board, one of the original Managers of this Hospital, the Rev. Henry W. Ducachet, D.D. The managers desire to express their sense of his valuable services and assiduous attention to his duties as a visiting Manager, to the interest in its concerns which he manifested and of the loss to the Hospital by the blow which has removed him from his earthly ministry.

The managers have also to regret the death of Mrs. S. R. Knight, the wife of the Superintendent, who has admirably and gratuitously discharged the duties of Matron of the establishment. Her loss in this important respect has brought to the attention of the Board the desirableness of creating the office of Matron as one of the regular officers of the Hospital, to be filled, as others, by election. The immense increase of the business, wants and labor of the establishment since the occupation of the new building renders this measure at once desirable, and the Board have, at their last meeting, elected to that office, Mrs. A. M. Knisell.

The managers have also to announce the loss, by resignation, of the services of Mr. Clayton T. Platt, one of their original number; his attention to his duties at the Hospital and personal character render his resignation a matter of regret to the managers.

This increase of work has also caused the addition of another Resident Physician to the former number, with, it is believed, a decided benefit to the Institution.

The only change in the medical staff has been the

resignation of Dr. William Mayburry, as Visiting Physician, the senior of the Medical Corps, after a long, faithful and conscientious service, and the election in his place of Dr. Edward A. Smith.

The annexed table of cases reported, will show the number of patients under treatment and the large amount of out-door relief afforded by the Dispensary department.

The Board of Managers are glad to acknowledge the receipt of a second annual appropriation of \$5000 from the Legislature, not for the gift only, but as it is a recognition of the usefulness of this institution and the great principles of which it is the embodiment.

The thanks of the Board are richly due and are most willingly given to those who, during the year 1864, so liberally furnished coal for the use of the Hospital, and to the Railroads which have so freely transported it, thereby aiding its operations and enabling the Board largely to extend them. They do not doubt that the same liberal spirit will continue to be shown by those engaged in mining operations and by our railroad companies, especially as from the open door extended by the Hospital to all it may often be enabled to receive and minister to those disabled by accidents in the coal regions and on the roads engaged in transporting it.

In furnishing the new wards the happy design was conceived by one of the Managers of having them decorated by original works of art. The Managers desire to express their thanks to Mr. Russell Smith and Mr. P. F.

Rothermel for their kind donations of original works of art from their easels, contributed for this purpose, the subject of the painting by the former artist being "Preaching in the Wilderness," and that of the latter "The Woman at the Well of Samaria." They now adorn the Men's Medical ward of the Hospital.

The Rev. Dr. Spear, who had for some time performed the services of chaplain *ad interim*, has, after acceptable and valuable work done, resigned the appointment, and the appointment of a permanent Chaplain has at last completed the organization of the Hospital in its two-fold office of ministering to the souls and the bodies of men, an office, the parts of which should never be divided. The Chaplain, the Rev. Joel Rudderow, is commended as one worthy of the confidence of the community. It seems therefore a proper opportunity for the Board to suggest a few important topics connected with the working of the Hospital on its present foundation.

And, 1st, *The Free-bed system*, it is suggested, should be greatly enlarged. The Hospital of our Church in Philadelphia is designed and should be regarded as supplying to every one of its parishes, in one general institution, what each parish needs to make it complete, and what otherwise, in some shape or other, each well-worked and complete parish must possess for itself. For besides the worship of the Sanctuary, the parish idea includes precisely, so far as concerns the care of its poor, sick members, among various other good works, just what this Hospital affords. Each Church should feel that this

is *its* Hospital, an adjunct, which can better be furnished in one general than in 50 or 60 distinct institutions. The Free-bed system carries out this idea and the interest of the whole church is thereby secured, and we feel the more that we are not many bodies, but one. Of Free-beds supported by annual contribution this Hospital has only ten. The Managers would earnestly recommend the increase of this number, so that each parish should have one or several. And, to this end, it is suggested whether Parish societies for this given work might not be found useful, as in the Church of England, for the Church Missionary Society. The object is so distinct from ordinary parish collections that the objection to multiplying Societies might not be brought.

2dly, as proposed in the Report for 1863, a *Children's Ward* should be set apart. There is no one who has visited St. Luke's Hospital, especially under the guidance of its distinguished Chaplain, but must have been struck with the beauty of such an arrangement and touched with the good it must infallibly do. Our Report for 1863 speaks of this as "peculiarly necessitous," and though our sister institution, the Children's Hospital, is already engaged in this special field, yet the field is large enough for two such agencies, for as many indeed as there are Hospitals, and the probable location of the Hospital referred to is in a district miles away from our locality. The Sunday-School and out-door visiting will, as suggested by the Report already quoted from, largely increase the number of such patients, and their distinct

and peculiar character demands a ward specially appropriated to them. "They require special nursing and attention, and should not be exposed to the common and too often contaminating associations of the general wards. In other institutions this has been found highly injurious."

3d. The increase of superior accommodation for *Pay patients* is recommended, not only as a charity, (and charity may be shown, under peculiar circumstances, to other than the poor,) to those of our Communion, or others, who desire such a home, temporary or otherwise, but also as adding largely to the funds of the Institution, and thus greatly reducing the average cost of each of the Charity, or Free-bed patients.

4th. One of the great wants of the Church and community at large is a place where persons laboring under *incurable disease* can be properly cared for and their sickness and pains alleviated by the nursing, medicines, attention and sympathy, which after all can only soothe their journey to the grave. Though our institution is mainly a Hospital for the cure of wounds and disease, and designed to do the largest amount of good by the quickest return of the disabled to their families, the community and their daily work, such an object is clearly within our range of labor. Such an institution too is desirable, and the efforts of some of our Parishes, and the movements of the community in general societies shew that this fact is recognized. And to no institution in our city could such a retreat be attached so well as to

this Hospital of a Christian Church, where the means for religious preparation and solace for the last home are always at hand. It is not doubted that there are those who would cheerfully remember in their wills so great a need, and one so strongly appealing to the sympathies of the aged sick, and the Managers would ask the attention of the community to it and express their readiness to establish and provide for such a department of the Hospital whenever adequate means are provided.

The total cost of maintaining the Hospital for the year 1865 may be estimated at about \$28,000. When it is remembered that in the Report for 1861 the total annual cost was under \$5000, it will be seen how largely the expenses have been increased by the erection of the new building and its greater facilities for accommodating patients, (facilities largely made use of by the Board,) as well as by the immense increase in the cost of all necessities of life. That the Church has in some degree realized and acted on this state of things may be seen in the Thanksgiving-day collections, which have risen from about \$2700 to \$3000, (reported in the Reports for 1859 to 1861,) to about \$7100 reported in that for 1864, or, as estimated, about \$8000 for the past year. It is evident that even this increase by no means corresponds with the increase of cost, or our wants, or with the duty of extending to yet more patients the accommodations and facilities which we now possess, but which must lie idle and unused for want of annual income. We could at this moment largely increase our number of beds, were means

to support them given. It is a loud call, it seems to the Managers, on all the churches of our Communion, not to allow such opportunities to be unimproved. And, while the Managers have felt encouraged to go on so far, they cannot but appeal to their constituents not to weary in this noble and glorious work, but to do good as they "have opportunity."

There is no doubt that this Hospital should now be placed on a more stable foundation. "It was thought a good beginning," (says the Report for the year 1862,) "when, at the start of this enterprise, \$40,000 were raised by its friends for a permanent fund; but since that time, for the buildings of the Hospital, \$139,500* have been collected," besides \$10,000 for the support of a Chaplain and another yet larger bequest. At first the Hospital did its limited good in its limited rooms at the old Leamy Country House. It then partly occupied the noble halls which this community enabled it to erect. It should now, (in addition to the support of Free-beds, before spoken of,) be placed in a position to use fully these benefactions.

Can there be a better time for the commencement of *a large and sufficient endowment* than now, when God has so signally blessed us as a nation? When the year began whose work we report, it was in the midst of doubt, disaster, division, uncertainty, the very existence of our nation placed on the issue of war, and its authority denied and resisted by about one-third its citizens. In

* It has been now increased to \$165,000.

that year God has mercifully granted us to see the national authority restored, the cause of law and order maintained, and that of liberty crowned with success, and, though saddened by the great National bereavement, we once more can thank God for our confirmed national existence and the advance in church and state, to a more thorough understanding of each other and the reign of peace and love among brethren. It is eminently a good time to propose and to commence this *Thank-offering* of a permanent endowment of the Hospital, both for its intrinsic importance, for the blessings of the year, and as a worthy memorial to our departed Bishop. Would not this be a fitting, the most fitting monument to his memory? If such a work be commenced, it should be thorough and complete, for a partial endowment is, as has been urged in a former Report, an injury rather than a good.

But it is not only an adequate maintenance of the present Hospital buildings at which the Protestant Episcopal Church of this great Diocese should aim. The present building is not only incomplete by the absence of the two extreme wings necessary to finish its imposing proportions, but it is yet more so, and presents too the manifest appearance of incompleteness by the fact that the proposed building next east of the chapel is yet unbuilt. Its foundations are there: when will the superstructure arise? Whatever may be thought of the probability of the whole plan being realized, and probably the most magnificent Hospital on the continent erected, it surely is a work for the *present* day not to allow the edifice

to remain so manifestly incomplete as it now is. With the main Front embracing the Central Chapel building and the present west wing extended to and continued by *a corresponding east wing*, it would be complete—a building, (even if all we aimed at has not been attained,) of which Philadelphia need not be ashamed. It would be a splendid pile, not of beautiful architecture and commodious arrangement only, but of substantial and great good to the souls and bodies of our fellow-men. And we propose *the full endowment of the Hospital*, and *the completion of the nearest east wing* as works to which God calls his people now.

Chaplain's Report.

TO THE RT. REV. WM. BACON STEVENS, D.D.,
Bishop of the Diocese of Pennsylvania.

*Report of the Chaplain of the Hospital of the Prot. Epis. Church,
for the year ending January 1st, 1866.*

Baptisms.—Adults, (patients), 6; infants, (one of whom was a patient), 17; total, 23.

Confirmed—7; (four of whom were soldiers from Chestnut Hill Hospital, the remainder were patients.)

Marriage—1.

Burials—20; 7 of which were of patients.

Services.—The Chaplain's Record shows that daily services have been maintained with great regularity, both in the Wards and in the Chapel, until the time—26th September—when the present Chaplain entered upon his duties. For one month thereafter, the Chapel service was suspended, in part, by order of the Bishop, in consideration of the Chaplain's physical inability.

Daily prayer is held in each of the Wards in the morning of each day, and the regular evening service in the Chapel in the afternoon. On Sundays there is an addition of addresses in the Wards in the morning, and a sermon in Chapel in the afternoon.

Holy Communion is administered in the Chapel on the third Sunday in the month to an average of about forty participants, and on the other Sundays in the Wards in rotation, to such as are desirous of communicating, but who are too infirm to go to Chapel.

Sixty-five dollars and fifty-three cents have been contributed for missions and benevolences during the past year at the Chapel services, principally on communion Sundays.

A marked spiritual improvement has been manifested in the

Wards during the three months service of your Chaplain, and several have left us professedly Christians, who came in careless and forgetful of God and of Christ.

I take this occasion to bear my grateful testimony to the very efficient services of our lady visitors, who have lightened my labors and cheerfully co-operated with me whenever they could. It is to their influence, doubtless, more than to any other direct agency, that so many are brought from apparent dislike of sacred things to the love of Jesus and his salvation.

The Patients' Bible Classes and Bible Classes for young men and Misses from the neighborhood, the former held daily through the week, and the latter on Sunday, are under the charge of these ladies, and have yielded precious fruits, and promise a more abundant harvest.

I am also greatly indebted to Mr. J. P. Kellogg, a candidate for Holy Orders, who has rendered valuable assistance on Sundays in the Wards, in the Sunday school, and in the Chapel. Mr. Kellogg relieves me from most of the Sunday school care. He has under him several teachers and about two hundred children.

The congregation in the Chapel, on Sundays, averages about two hundred and is increasing. More active visiting in the neighborhood is about being entered upon. Many families now look to the Hospital entirely for their spiritual care, and I would respectfully suggest the propriety of furnishing for such residents, a Morning Service in Chapel, as soon as it can be given without interfering with Hospital work.

Under the continued blessing of a merciful God, this Hospital work promises to become, very soon, no insignificant agency in the extension of our Church, and in building up the kingdom of Christ.

Respectfully submitted,

JOEL RUDDEROW, *Chaplain.*

December 30, 1865.

REPORT OF CASES TREATED IN 1865.

During the year, seven hundred and thirty patients have been admitted. At the date of the last Report, seventy-two patients were in the Hospital. The whole number treated during the year, is thus eight hundred and two (802).

Four thousand nine hundred and eighty-five patients have been treated at the Dispensary during the year.

CHARTER OF INCORPORATION.

GRANTED JULY 8th, 1851.

WHEREAS, *The following named persons, citizens of this Commonwealth, viz.:* Alonzo Potter, William H. Odenheimer, Joseph Reed Ingersoll, Peter McCall, George M. Wharton, and Francis Wharton, have, together with other citizens, associated themselves for the purpose set forth in the following articles, and are desirous to be incorporated agreeably to the provisions of the Act of the General Assembly of Pennsylvania, entitled “An Act to confer on certain Associations of the Citizens of this Commonwealth, the powers and immunities of corporations or bodies politic in law”—They therefore declare the following to be the objects, articles, and conditions of their said association, agreeably to which they desire to be incorporated, viz.:

I. NAME.

The name of this Corporation shall be “The Hospital of the Protestant Episcopal Church in Philadelphia.”

II. OBJECTS.

The objects of this Corporation are—

1. To provide medical and surgical aid and nursing for the sick and disabled, either in the Wards of the Hospital or at their homes.

2. To instruct and train suitable persons in the duties of nursing and attending upon the sick.

3. To provide the instructions and consolations of religion according to the principles of the Protestant Episcopal Church, for those who are under the care of the Institution.

4. Such other purposes incidental and kindred to those above mentioned as the Board of Managers, hereinafter to be provided, may prescribe.

III. OF CONTRIBUTORS.

1. Every person contributing, at one time, a sum not less than fifty dollars, shall be entitled to vote at the annual election for Managers.

2. Every contributor of one thousand dollars shall be entitled to have one person constantly in the Wards on his or her recommendation.

3. Every contributor of two thousand dollars shall become a perpetual contributor, and be entitled to have one person constantly in the Wards on his or her recommendation; and shall have, in addition, the privilege of designating by last will, or other declaration in writing, attested by two witnesses, in whom the rights of contributorship shall be vested.

4. Every contributor of five thousand dollars shall be entitled to confer such name as he or she shall appoint, upon a Ward, which shall ever thereafter bear that designation.

5. Every contributor of ten thousand dollars shall be entitled to confer such name as he or she shall appoint upon a Ward, which shall ever thereafter bear that designation; and shall have, in addition, the privilege of having five patients at all times in the Hospital. Such privilege to be enjoyed perpetually, and to pass by last

will or other declaration in writing, attested by two witnesses.

6. A contributor of any sum shall be entitled to have a patient each year upon the books of the Institution for a period equal to double the period which the annual interest on his contribution would entitle him to, at the rates for pay patients.

7. A yearly payment of five, ten, twenty, or more dollars, constitutes an annual subscriber, with the privilege of having a patient in the Hospital, or of securing attendance and medicines, at his or her home, during the year of his subscription, for a period equal to double the period which the amount of his subscription would entitle him to, at the rates for pay patients, but without the right of voting for Managers, unless his annual subscription shall amount to fifty dollars.

8. The corporation hereby established shall also be entitled to receive from persons charitably disposed, donations or legacies to any amount not falling within any of the foregoing classes, and apply the same to the general purposes of the Institution.

9. The privileges of all contributors or subscribers shall be enjoyed, subject to the regulations of the Institution.

IV. OF GOVERNMENT.

The government of the Institution shall be vested in a Board of Managers, consisting of twenty-four persons, communicants of the Protestant Episcopal Church in Philadelphia, one-third of whom shall be clergymen, in addition to the Bishop of the Diocese, if there be one, who shall be *ex-officio* President of the Board. In case of a vacancy in the Episcopate, the Board

shall choose, for the current year, one of their own number to be President, until there be a Bishop of the Diocese.

The election for Managers shall be held on the first Tuesday of January, 1852, and thereafter on the first Tuesday of January in every year, or in case of failure to elect on that day, on any subsequent day. At the first election, twenty-four Managers shall be chosen, in three different classes of eight members each, to continue in office for one, two and three years respectively; and at every subsequent election eight members shall be elected to serve for three years. The Board shall have power to fill vacancies in their own body. Seven members shall be a quorum for all ordinary business, including the payment of current expenses. But for filling vacancies in their body, making or altering by-laws, purchasing or selling real estate, or other capital stock of the Institution, or contracting any debt beyond two hundred dollars, except for current expenses, thirteen members shall be required to form a quorum.

The Board of Managers shall appoint at their first meeting in each year, or at such other time as they may designate, a Treasurer, Secretary, and other necessary officers; provided, however, that the Treasurer shall not be one of their own body.

The Board of Managers shall hold meetings monthly, at such time and place as they may appoint, of which due notice shall be given.

V. OF MEDICAL OFFICERS.

The Board of Managers shall choose at their first meeting after their election, or at such other time as they may appoint, such number of Physicians, Surgeons,

and Obstetricians, for the current year, as they shall deem fit, who shall form a Medical Board. They shall also fill vacancies therein as they occur, and shall have the power of removal.

The entire medical care of the patients shall devolve on the said Medical Board.

No patient shall be admitted except in the cases herein otherwise provided for, without the certificate of one of that Board, nor discharged without the approbation of the Physician or the Surgeon, at the time in attendance. The nurses and attendants shall be subject to their authority.

There shall also be appointed at the same time, assistant Physicians, Surgeons, &c., whose duty it shall be to attend daily in such rotation as they may decide among themselves, to treat such sick or injured persons, as shall present themselves for advice and assistance as out-patients, and they shall visit them at their houses when the case is such as renders them unable to come to the Hospital for treatment.

There shall be appointed by the Board of Managers, annually, such number of house resident Physicians as shall be designated by the Medical Board and approved by the Managers, whose duty it shall be to attend to the treatment of all the in-patients during the intervals of the visits of the attending members of the Medical Board, to whom they shall be held responsible for that duty. They shall also prescribe for such cases of out-patients as may be presented at those hours when the assistant Physician or Surgeon is not in attendance.

VI. OF RELIGIOUS SERVICES.

A Chaplain shall be appointed by the Bishop of the Diocese for the time being, or in the event of a vacancy

in the Episcopate, by the Board of Managers, whose duty it shall be to celebrate Divine worship every morning and evening in a Chapel to be provided for that purpose.

He shall be ready at all times to discharge all duties which pertain to his office as a minister of the Gospel, as well to the sick and poor at their own homes, as to the patients in their Wards.

Private religious ministrations are not to be understood as prohibited to any patient, according to his or her conscience.

VII. OF PATIENTS.

Any case of accidental injury shall be admitted, if brought to the Hospital within twenty-four hours of the time at which the injury was received, and the case be considered by the House Physician or Surgeon sufficiently severe to require assistance.

Other patients, without exclusion of creed, color or country, shall be admitted, subject to the decision of the Physician or Surgeon at the time in attendance and the acting Managers; provided, that among incurable patients a preference shall be given to the members of the Protestant Episcopal Church.

Those cases which are deemed by the Medical officers most necessitous, urgent and dangerous, and those which are most likely to admit of being relieved, are to have preference in being received as patients.

Persons afflicted with contagious diseases may be received, subject to such limitations or regulations as experience shall show to be requisite.

VIII. OF NURSING AND LAY ATTENDANTS.

Besides paid nurses, the following may be employed, subject to such restrictions and regulations as the Managers shall from time to time prescribe.

1. Persons of both sexes who wish to be educated for the business of nursing.

2. Persons of both sexes who wish to devote a portion or the whole of their time to gratuitous attendance on the sick and afflicted.

IX.

Until the regular election of a Board of Managers, in January, 1852, as hereinbefore provided, the following twenty-four persons shall compose the Board of Managers :—

REV. BENJAMIN DORR, D.D.
 “ RICHARD NEWTON, D.D.
 “ WILLIAM H. ODENHEIMER.
 “ HENRY J. MORTON, D.D.
 “ WILLIAM B. STEVENS, D.D.

BY-LAWS.

ADOPTED OCTOBER 25th, 1851.

LAW FIRST.

The stated meetings of the Board of Managers shall be held on the last Thursday of every month, (excepting in the month of January, when the stated meeting shall be held on the first Thursday after the annual meeting of the contributors,) at such hour and place as the Board, from time to time, may designate. Special meetings may be called by the President, on his own motion; and shall be called by him, when he is requested so to do by five members.

LAW SECOND.

The business of every meeting shall be opened with appropriate Collects from the Book of Common Prayer, or with a form of Prayer provided by the Bishop. The roll shall then be called, and the minutes of the former meeting read, corrected if necessary, and approved. The order of business shall be as follows:

1st. Communications, which shall be read, considered and disposed of.

2d. Report of Treasurer read and considered.

3d. Reports of Standing Committees in alphabetical order.

4th. Reports of Special Committees in the same

order. Each report shall be disposed of, before proceeding to the next in order; and all reports shall be in writing.

5th. Unfinished business.

6th. Resolutions, if any, submitted by any member.

LAW THIRD.

At the first meeting after each annual election, the Board shall be distributed into Visiting Committees, to be composed of one clergyman and two laymen in each. The clerical members of each Visiting Committee shall serve during six weeks. Of the lay members of the Committee which shall first enter on duty after each election, one to be determined by lot or otherwise at the first meeting of said Committee, shall serve during only four weeks, at the end of which period, his place shall be supplied by one lay member of the Committee next in order, who shall thus serve as the medium of connection between the two Committees. The term of service of such lay member shall be six weeks, at the end of which term his place shall be supplied by one lay member of the Committee next in order of succession, and thus throughout the official year.

Of the Visiting Committee on duty, any two shall have power to act.

It shall be the duty of the Visiting Committee to visit the Hospital and inspect the condition of the wards and patients at least once in each week; to attend to the admission and discharge of patients in concert with the medical officers in attendance at the time; to examine the accounts of the Superintendent; to see that the rules of the Institution are duly observed; to attend to the purchase of all articles necessary for the use of the

Hospital, provided always that they do not expend or incur liability for any sum exceeding two hundred dollars without the previous sanction of the Board.

There shall be appointed by ballot at the first meeting of the Board after the annual election, a Committee on Finance, to consist of three members, who shall audit the accounts of the Treasurer, and also the accounts of the Visiting Committee semi-annually. This Committee shall also attend in conjunction with the Treasurer to the investment and proper management of the capital stock of the Corporation.

LAW FOURTH.

The President, or in his absence, the member of the Board next in order on the roll, shall preside at the meeting of the Managers. He shall decide all questions of order, subject to an appeal to the Board as hereinafter provided.

LAW FIFTH.

The Secretary shall, besides the ordinary duties of a Secretary, such as keeping the minutes and issuing notices to the members of the Board, act also as the conservator of the papers, records, and minutes of the Hospital. He shall have the custody of the seal of the Corporation, and affix it to documents when directed by a resolution of the Board of Managers, and only in such cases.

LAW SIXTH.

The Treasurer shall present quarterly to the Board of Managers, a written report of the state of the funds, and of his receipts and disbursements during the preceding quarter. He shall pay bills when directed by a resolu-

tion of the Board, or in accordance with the Third by-law.

LAW SEVENTH.

The rules of order shall be as follows :

1. The ayes and noes on any question shall be taken at the request of two members.

2. All motions shall be submitted in writing.

3. The question shall not be put on a motion, unless the same be seconded. But all motions shall appear upon the minutes with the mover's name, although not seconded.

4. When any member is about to speak, he shall, with due respect, address himself to the President, confining himself strictly to the point in debate.

5. No member shall speak more than twice in the same debate, without leave of the Board.

6. When a question is under consideration, no motion shall be received, unless to lay it upon the table, to postpone it to a certain time, to postpone it indefinitely, to commit it, to amend it, or to divide it; and motions for any of these purposes shall have precedence in the order herein named. The motions to lay upon the table, and to adjourn, shall be decided without debate. The motion to adjourn shall always be in order.

7. All Committees shall be appointed by the President, unless otherwise ordered.

8. The reports of all Committees shall be in writing, and shall be received, of course, and without motion for acceptance, unless recommitted by vote of the Board. All reports recommending or requiring any action or expression of opinion by the Board, shall be accompanied by a resolution for the action of the Board therein.

9. If the question under debate contains several dis-

inct propositions, the same shall be divided at the request of any member, and a vote taken separately, except that a motion to strike out and insert, shall be indivisible.

10. All questions of order shall be decided by the Chair, without debate; but any member may, if seconded, appeal from such decision; and on such appeal, no member shall speak more than once, without express leave of the Board.

11. Every member who shall be at the Board, when any question is put, shall, on a division, be counted, unless he be personally interested in the decision, or excused by the Board.

12. All amendments shall be considered in the order in which they are moved. When a proposed amendment is under consideration, a motion to amend the same may be made; no after amendment to such second amendment shall be in order. But when an amendment to an amendment is under consideration, a substitute to the whole matter may be received.

No proposition on a subject different from the one under consideration, shall be received under color of a substitute.

13. These by-laws shall not be altered or repealed, unless notice thereof be given at a previous stated meeting.

LAW EIGHTH.

At the stated meeting of the Board of Managers held in November in each year, a committee shall be appointed whose duty it shall be to prepare a report of the proceedings of the Board, and of the condition of the Hospital, and present the same to the annual meeting of the contributors in January.

LAW NINTH.

No patient shall be allowed to remain in the wards a longer period than three months, without the special action of the attending Managers in the individual case, subject to the further action of the Board.

PRAYERS WHICH MAY BE USED

AT THE

MEETINGS OF THE BOARD,

IN CONFORMITY WITH BY-LAW II.

OUR FATHER, who art in heaven, Hallowed be thy Name. Thy kingdom come. Thy will be done on earth, as it is in heaven. Give us this day our daily bread. And forgive us our trespasses, as we forgive those who trespass against us. And lead us not into temptation; But deliver us from evil: For thine is the kingdom, and the power, and the glory, for ever and ever. *Amen.*

DIRECT us, O Lord, in all our doings, with thy most gracious favor, and further us with thy continual help; that in all our works begun, continued, and ended in thee, we may glorify thy holy Name, and finally, by thy mercy, obtain everlasting life; through Jesus Christ our Lord. *Amen.*

O LORD, who hast taught us that all our doings without charity are nothing worth; Send thy Holy Ghost, and pour into our hearts that most excellent gift of charity, the very bond of peace and of all virtues, without which whosoever liveth is counted dead before thee. Grant this for thine only Son Jesus Christ's sake. *Amen.*

O FATHER of mercies and God of all comfort, our only help in time of need ; Look down from heaven, we humbly beseech thee, behold, visit, and relieve those sick persons who are under our care. Look upon them with the eyes of thy mercy ; comfort them with a sense of thy goodness ; preserve them from the temptations of the enemy ; give them patience under their affliction ; and, in thy good time, restore to them health and enable them to lead the residue of their lives in thy fear, and to thy glory. Or else give them grace so to take thy visitation, that after this painful life ended, they may dwell with thee in life everlasting ; through Jesus Christ our Lord. *Amen.*

O God, from whom all holy desires, all good counsels, and all just works do proceed, send down thy blessing upon the Charitable Institution with which we are connected. Give to us, its managers, such wisdom, faith, and patience, that we may overcome every difficulty, and so conduct its affairs that thy glory may be promoted, and the temporal and spiritual comfort of many of thy people be advanced. Be ever with us in our deliberations, that by thy holy inspiration we may think those things that are good, and by thy merciful guiding may perform the same. Stir up the wills of thy faithful people and open their hands, that means for carrying forward this work may be liberally supplied, and knowing what things they ought to do, may they have power and grace faithfully to fulfil the same, through Jesus Christ our Lord. *Amen.*
